Petitioner further alleges that she has suffered the residual effects of her vaccine-related injury for more than six months. Petition at ¶ 24. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 10, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Respondent states that Petitioner’s alleged injury is consistent with SIRVA as defined

by the Vaccine Injury Table. Specifically, Petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; pain occurred within forty-eight hours after receipt of an intramuscular vaccination; pain and reduced ROM were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain Petitioner's shoulder pain." *Id.* at 7. In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.
